

Property Restitution in Warsaw - Attorneys

The Holocaust Restitution Committee has been working since 1989 to help Holocaust survivors and their heirs reclaim homes and possessions unjustly taken from them during the Holocaust and its aftermath.

Holocaust survivors and their families have asked us for recommendations of attorneys in Warsaw, particularly after new legislation in Poland took effect on September 17, 2016. This legislation may impact the rights of Holocaust survivors and their heirs who previously filed claims in the years after the Holocaust. Please visit the World Jewish Restitution Organization's website, www.wjro.org.il, for information on this new legislation.

The Holocaust Restitution Committee cannot recommend a particular attorney. However, to help survivors and their families, we have compiled the below list of Polish attorneys who have experience with property restitution cases in Warsaw and are familiar with the recently passed law on properties in Warsaw.

We urge you to contact more than one attorney before hiring one. In particular, you may wish to compare their fee information by asking each attorney for a breakdown of his or her fees. Attorneys may divide their work into different stages required to preserve your claim and pursue restitution, such as (i) the initial review of property records, (ii) filings in the administrative proceedings for your property claim, and (iii) for heirs to a property, establishment of succession rights.

We hope that this information helps survivors and their families obtain restitution for their property in Warsaw.
